

# bareMinerals®

by BARE ESSENTUALS

## 9 *Bare Minerals Application Guide*

Applying bareMinerals foundation, blush, veil and all-over-cheek-colour in the correct manner ensures that the most effective and natural results are achieved. By following these three simple steps you will be able to effortlessly create a radiant, natural and even finish.

**Swirl** a small amount of bareMinerals into the lid of the product with either the **Flawless Application Brush** - for light coverage, or the **Full Coverage Kabuki Brush** - for more coverage. Continue this movement until the bareMinerals are tucked into the bristles.

**Tap** off any excess minerals. bareMinerals should not be visible on the outside of the brush, but rather embedded within the bristles and evenly distributed.

**Buff** bareMinerals onto the skin in an even, swirling, circular motion, starting on the outside of your face - near your cheekbones. Then, buff around your face, working your way to the cheeks, forehead and nose.
